

**TROUT DOPE Sbirolino**

The TROUT DOPE Sbirolino line was developed for the modern trout-fishing in Sbirolino-Style. This makes it nearly invisible to easily spooled trout. The highly flexible and UV-ray resistant line possesses a high load capacity with a reduced memory effect.

Also excellent for catching „Renken/Felchen“ (Coregons) in the Alp-Lakes.

**An outstanding line concept: Premium-Copolymer**

premium fishing monofilament

**Fluorescent**

The result:

- A “nearly crystal clear” line – almost invisible – with a whisper of fluorescent shine
- Fluo-coated
- Very high strength against friction
- Maximum strength by tempering
- 100% Diameter- and Load Capacity guarantee in accordance with DIN ISO 2062

The angling line for the professional angler, with one goal in mind: Catching more and larger fish.

Tip: Also excellent for catching Whitefish

- Molecularly sealed
- Superior wet knot strength
- High abrasion
- No reflection under water
- Maximum strength

**Professional line for tournament fishing conditions.  
The ideal line for boat, surf, and salt water angling.**

DEGA "CENTRA Line" is THE perfect addition for angling at great depth. Molecularly sealed, it takes on no water, and consequently displays enormous capabilities. Sulfur particles that cause damage to the line and premature line aging, are held off by a special surface coating.

# POWER 8

- 8-fold round braided
- extremely non-abrasive
- durable
- high tensile strength

**Characteristics:**

- 8-fold round braided
- Excellent casting qualities
- Noise reduced casts
- Soft surface
- Extremely high tensile strength
- Very high non-abrasiveness
- Color: green
- PE-material
- Ideally suitable for fresh and saltwater

**Power 8**
