# REDIXX FIRESHOOTER

HIGH MODULUS CARBON CONSTRUCTION

**Handmade rod series from finest Carbon-Material**  
**Ultra-lite – Powerful – Modern – Exclusive**

Only modern high quality materials were used in assembling the handmade REDIXX Fireshooter rod series. In addition to the extremely light and thin long-cast guides, a high-end lightweight aluminum reel holder was added. This construction allows for direct finger contact to the blank while angling which enables the finest feel for the bait and fish. The HI-Modulus (high-density carbon blank) is thin, extremely light, and due to its stiff spine with sensitive tip action is qualified for professional artificial bait angling. This rod series meets all of the actual demands such as "Speed", "Lightness" and "Modern Setup" – Feel the difference!

- Hi-Modulus Carbon Blank
- Handmade Rod Series
- Ultra-lite Blank
- High quality Components
- Finger contact with the blank

## REDIXX FIRESHOOTER

Item-No.	Length	Parts	Transp. length	Weight approx.	Casting-weight	* €

SPEED SPINNING

**fireball ●**

## Hand made dream rod made from 100% carbon material High Quality – light – potent – fast – powerful

### A masterpiece in rod manufacturing – “Hot and Strong like WA-SA-BI”

The WA-SA-BI Speed Spinning Rod series - hand made and tested over an extended period of time - is exclusively assembled with high quality Fuji components. Knowing that modern angling techniques require special blank and rod qualities, the WA-SA-BI rod series was developed including such characteristics. The FSP (Fast – Sensitive – Powerful) carbon material enables the light, slender, hand crafted quality blanks to provide a faster and more powerful action. In addition to the Fuji Alconite guide ring inserts and the high quality reel holder, the handle has been crafted from the finest available quality AAA-cork.

- Fuji reel-holder
- Fuji Aconite guide ring inserts
- Handle from the highest quality AAA-Cork
- 100% FSP Carbon-blank
- Spin-rod for nearly every application
- Attractive and noble design
- Short Handle “light construction” – for tireless fishing
