

# REDIXX

**POWERSHOOTER**  
HIGH MODULUS CARBON CONSTRUCTION

## Noble handcrafted spin rod for all predatory fish anglers

**Highlight:** The handgrip (below the reel mount) is manufactured in one piece.

This eliminates rough edges, disturbing elements, and additional weight.

A comfortable and sensitive angling with spinners, spoons, wobblers, or rubber fish is achieved.

Equipment features:

- Optimal handgrip length for predatory angling
- Ergonomic handgrip shape (rests comfortably in the lower arm)
- Carbon-Blank construction
- Hand manufactured
- High quality and extremely lightweight guide rings

Item-No.	Length	Parts	Transp. length	Weight approx.	Casting-weight	* €
1322 240	2,40 m	2	122 cm	160 g	10-30 g	99,50
1322 270	2,70 m	2	136 cm	178 g	10-30 g	109,50

- **Perfectly balanced**
- **High-sealed 2-piece EVA handle**
- **Extremely attractive and contemporary design**
- **Measured length handle**
- **Light – fast – handcrafted**

With  Components

Item-No.	Type	Length	Parts	Transp. length	Weight approx.	Casting-weight	* €
1488 210	ML-210	2,10 m	2	110 cm	137 g	5-20 g	104,50
1488 240	M-240	2,40 m	2	125 cm	177 g	7-30 g	111,50

## 

Handcrafted **Viplex ONE** rods comprise a revolutionary design. On top of that they are equipped with the newest generation LC – Long Cast rings and a special aluminum light construction reel holder. The new HI – Modulus Blank (high density blank) is thin and light, while at the same time possessing an ultrafast and accurate spine. In addition to this, an integrated visible Hi-modulus carbon fiber support was added to protect the rod from breaks when placed under heavy use. By combining state of the art materials we have succeeded in developing a rod series that is both unbelievably "light" and "fast". This provides the angler with adequate reserves given long fights and flight attempts, resulting in the fish becoming tired. Enjoy the fight...

- **2-piece**
- **Carbon-Blank-Construction FSP**
- **Exactly balanced**
- **Extremely attractive design – with visible carbon parts**
- **High density and extra-hardened 2-piece EVA handle**
- **Aluminum component handle**
- **Extraordinary – a new generation in rod manufacturing**
- **Light – Fast – Extremely thin – Handcrafted**
- **Finest cork – 2-piece handle – full carbon – Long Cast Rings**
