The color white is in: Whether it be your car, cell-phone, watch, shoes, or eye-glasses. XPERANZA is in step with the style – it is simply “in”.
- A beautiful piece – for your nicest days on the water

XPERANZA

The XPERANZA “Spin & Jig” as well as the “Trout-Spinning” were added to our program as a result of the large number of requests from our customers and team anglers. The ultra thin and very light blanks were used to develop a rod for light predatory fish, trout, and perch angling. Details and specifications remain identical with the other well known models. Ultra-thin blank, starting with a 7mm diameter.

SOLID-PRO

POWERFUL FIBRE GLASS CONSTRUCTION

Here is a nearly unbreakable fiberglass rod for a broad range of use, especially when eel angling. This means you can land the fish without the use of a net. A robust rod with plenty of power. What the MAGIC STICK is to spin- and predatory fish-angling – the SOLID PRO 240 is to night and eel angling.

The transparent full-glass blank allows you to view the built-in sinews revealing the power and strength of the rod. The Solid-Pro especially enables night anglers to land eel without the use of a landing net. Due to the power of the rod, the eel can simply be hoisted out of the water, avoiding the tangling which would otherwise occur in such a net.

- Attractive transparent full-glass blank
- Solid Pro makes it possible to land eel without the use of a landing net
- A great rod for night angling
- Tightly sealed, sectional EVA-handle
- Metal sleeves where the sections connect
- Ready to use and robust in difficult conditions

Length: 7,50 m

STANDBY CONTROL

NATURAL BAIT & TOP WATER

Not just for float fishing – but also as a standby rod. With more power, reserve, and bendability which suits the taste of team angler and standby specialist Torsten Ahrens. Dream equipment: specially strengthened rod sections, SIC-guides, super thin soft grip with snap on reel-seat and integrated line-clip.
