

# Nakima Highspeed FX 2500

**Extremely high 6,2:1 transmission ratio – brilliant optic – narrow bodied**

A real high-speed match-, feeder-, or predatory fish reel, able to put the needed time difference between you and the competition. With a transmission ratio of 6,2:1, speedy precise retrieval of feeder baskets, rigging, or bait is easily accomplished. Ideal for going after fast predatory-fish such as Asp or Sea Trout.

Technical features of the **NAKIMA SX 2500:**

- Includes an additional flat metal spool
- Extremely fast line retrieval
- High-speed transmission ratio 6,2:1
- 9 + 1 quality ball bearings
- Finely adjustable front-brake
- Unlimited backstop
- Aluminum long-cast spool
- Reinforced baill-arm
- Anti-twist line roller
- Comfortable EVA crank knob
- Lightweight / sturdy reel-body

# i-fish neo 2500 / 3500

Presenting the stylistic black-Neon green spinning all-purpose reel in the JENZI **i-fish neo** reel line. We offer 2 models, the SX2500 and the SX3500 covering both light and heavy spinning. With a ratio of 1:5.5, the reels are also a good solution for all around angling. All reels are delivered with a colored replacement spool in keeping with our basic concept – this flexibility enables the modern sport fisher to rapidly adapt to changing conditions.

- Finely adjustable front brake
- Unlimited back-lock
- Aluminum long-cast spool
- Reinforced bell-arm
- Anti-twist line-feeder
- Direct Stop System
- 8 quality bearings
- Soft touch krank-knob
- Available in two sizes
- Includes replacement spool

Item-No.	Model	m/mm	Gear-Ratio	Weight approx.	Ball Bearing	* €
2317 025	SX 2500	180/0,30	5,1 : 1	262 g	8	74,50
2317 035	SX 3500	120/0,35	5,1 : 1	354 g	8	79,50

**MAKE A COMBO...**  
The perfect match to the **i-fish neo**-reel is the recommended **i-fish one**-rod.
