

Flatfish-Spoons

Alluring spoons for flatfish angling.

A 20-30 cm long mouth line (rig) with a flatfish-hook is attached to the spoon. Allow the flatfish-spoon to sink – raise the rod-tip and crank the reel 2-3 rounds and repeat. The dust-cloud makes the flatfish curious. Functions best with a 2,70 m – 3,00 m spin-rod. Manufactured from zinc (no lead!).

Tip: Spinner-blades or beads increase the effectiveness. Good luck!

Made of zinc
(No lead!)

Inliner Flatfish-Spoon

Place the flatfish spoon on the main line, followed by an approx. 20 to 30 cm long mono-rig. Thanks to the in-line butt spoon you can save a further knot on the main line and ensures good flying characteristics. Yellow-Glitter and Orange-Luminous are additionally UV-ACTIVE.

UV-Active Flounder Spoon

UV-active Flounder Spoon for Flatfish- and Sea angling. Allow the spoon to sink – lift the rod tip – 2 to 3 reel-turns and repeat. The creation of a “dust cloud” gets the fishes attention and makes it want to attack. The weight of the spoon makes it ideal for drifting from the boat. Manufactured from zinc (not lead!). Equipped with spring rings and swivel.

1 ea./sb-packaged.

UV-active Inline Flatfish Spoon in Flounder-Shape

Inline spoon lure in the shape of a Flounder for Flatfish and sea angling (UV-active Flounder Inline-Flatfish-Spoon). The spoon is a completely assembled leader with two hooks (swivel, hooks, spinner-blades, line and illuminous beads).

The variety of colors (UV-active) as well as illuminous beads increase the fish's interest. Simply allow the spoon to sink – raise the rod tip and crank the reel 2-3 times and repeat. A "dust cloud" is created which arouses the fish's curiosity and creates interest. Available in a range of color variations.

UV-active Inline-Flounder-Spoon mounted on an attractive rig

Inline lure-spoon for Flounder and Sea-angling (UV-active Inline-Flounder-Spoon).

Inline-Flounder-Spoon
BLEIFREI / LEAD-FREE

The spoon is a fully assembled rig with two hooks (swivel, hook, spinner-blade, line, and illuminated beads). The varied colors and the illuminated beads increase the fish's aggressiveness. Allow the spoon to sink – a slight lift of the rod-tip and 2-3 cranks on the reel and repeat. The created "dust-cloud" gets the fishes attention and produces a reaction. Comes delivered in three separate weight classes and color variations. Manufactured from zinc (not lead!)

- Length: approx. 110 cm
- Line-Ø: Main-line 0,50 mm, Sidearms 0,35 mm
- 1 ea./SB-packaged with a practical reusable EVA-mounting card.
