

Flatfish-Spoons – rigged

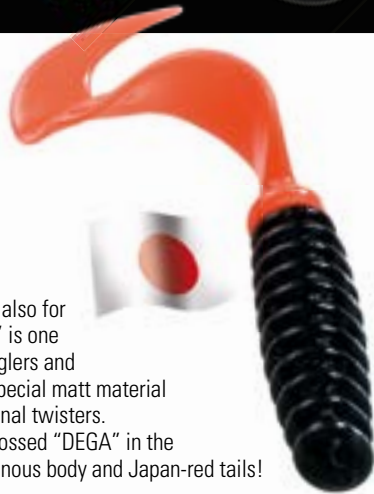

Alluring spoons for Flatfish- and Sea-angling. The spoon is attached to a fully assembled rig (swivel, hook, line, and luminous beads). The different color variations as well as the luminous beads entice the fish in an added way. Simply allow the spoon to sink – raise the tip of the rod and then 2-3 turns of the reel – and repeat. The “Dustcloud” that is created draws the fish’s attention causing it to be aggressive. Available in 4 different weight classes and in 3 of the most often used colors. 1 Ea/SB-packaged.

Original DEGA Sea-Twister

The original DEGA-twister for piking; but also for use as a walleye-twister. The “Japan red” is one of the best known twisters among sea anglers and now one of the most SUCCESSFUL. The special matt material is more tear resistant than with conventional twisters. The original can be recognized by the debossed “DEGA” in the twister’s tail. The hottest colors: Self-luminous body and Japan-red tails!

Jig-Heads

High-carbon jig heads, excellent for piking with a field tested ideal weight of 3,5 g. With these super sharp hooks, the number of fish that are spooked away is greatly reduced. The new many colored heads raises the level of attractiveness to the pursued fish by the increased color contrast.

Danmark Rig

It is no longer a secret that plastic fish are one of the most successful baits used on the Baltic Sea for Cod and Co.

Our DEGA team has put together the perfect total system for angling with plastic fish bait from a fish cutter. The innovative Denmark Rig designed for jigging for Cod and Co. includes 2 Fluorescent-Carbon-Leaders, 2 different sized River-Shad plastic fish, and 2 spiked Jig-heads of different weights making it readily adaptable to different depths and currents.

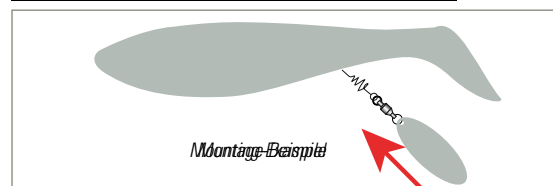

Whether used on the Baltic or on some of the more balmy regions of the North Sea, you can not help but have success with this rig. The name is just Danmark-Rig – but useable in all regions of the Baltic-Sea.

Spinner-Blades with Spring-Screw

Pimp your Shad – The EXTRA “Allurement” – is created by augmenting an artificial fish with the polished high-gloss spinner blades. The spinner blades are simply “screwed” into the artificial softplastic-lure lending stability to the feeder. A guaranteed recipe for success - especially when pike fishing or deep sea fishing on the Baltic or North Sea! 30 mm blade size. 2 ea. / Individually packaged.
