Mini-telescopic Gaff Practical for wading anglers; very compact transport size. Fully extended length including gaff-hook approx. 64 cm
 Item-No.
4483 064

INSPIRE magnetic net holder with karabiner "Quick Attach"

This is a practical solution, making it possible to lightly attach and carry the net on your belt or on your back. The magnet-clip allows you to access the net when landing a fish, and then simply return it to the magnet when finished. Complete with large rings and a karabiner.
 1 ea. SB-packaged.

 Item-No.
4482 117

Deluxe-telescopic Gaff
 2-piece, fully adjustable, 77-140 cm
 Item-No.
4483 140

Large-fish Harpoon (Telescopic) Special equipment for large fish in Norway & Co. The headpiece of the harpoon is thrust into or through the hooked fish with a taught rope. Then the hand piece is pulled back with the metal piece – and the fish is pulled in by hand with the rope. (This is necessary because large fish such as Halibut, Cod, etc. cannot be handled with a gaff. The harpoon system is a much better solution.) Harpoon with rope, sturdy telescopic rod and adapter. Length total all-in-all: 145 cm.
Special feature: compact transport size (approx. 65 cm) – great for traveling.
 Item-No.
4487 180

Perfect for Travelling/Luggage: 65 cm total

Harpoon for Large Fish
 Special equipment for large catches in Norway etc. The head of the harpoon, along with the retrieval rope is thrust into or completely through the fish. Then the handle is pulled back – making it possible to land the fish with the rope. (It is often difficult to land especially large fish such as halibut and cod with a gaff. This "harpoon-system" is much more effective.)

Complete set includes harpoon section with rope, handle and adapter.
 Length: approx. 170 cm.

Also excellent for freshwater angling!

Masterstand

Surf-Rod Stands of the premium class.

Luminous Plastic-Parts

Stabile, strong and perfectly thought through rod-stand for days at the sea. Produced from aluminum; therefore comfortable to transport: Freely adjustable up to 1,80 m. Handles 2 rods. A water bucket can be hung on the hook. Comes with 2 different rod-cradles; everything packed together in a transport bag (Note: Also suitable for freshwater-angling; but not suitable for catfish angling).

STONFO Assembly table – for Surf-cast Angling

In order to comply with the high standards and demands of the surf-caster, this well designed STONFO "Bait-Station" was developed. Its special joint assembly set allows it to be attached to all standard tripods with ease. An ideal solution for keeping surf-cast rigs, scissors, hook removers, lead sinkers, bait etc. at your reach. (Delivered without surf-rod holder and accessories as illustrated on the table).
Size: approx.: 37 x 27 cm
